**The Fine Print**

**Minimum order:** 16 portions. **How its packaged:** The soup is packed hot into a 1 litre plastic vacuum pouch; these are then placed in mini hot box for delivery. In the hot box the soup will stay piping hot for up to 2 hours- from when it leaves our kitchen. Each 1 litre pouch will fill 4 of the disposable cups.

The Sandwiches are packed onto a disposable tray – approx 20-30 sandwiches per tray. Bread either on a disposable tray or wrapped in foil .

**Can I choose what flavour?**

Afraid not, in order to bring you the best quality at the best price we leave the choice up to our chefs. But rest assured all our soups are awesome. And because we always supply at least two different flavours you know that there is something for everyone. Normally one is a hearty / chunky soup and the other a smooth or creamy soup. One will normally be vegetarian and one will normally be gluten free.
